The Auto Hobby Center takes pride offering our customers a clean and friendly environment with quality, honest service for our patrons. Our trained ASE Certified mechanics can do most repairs on all make and model vehicles at a cost much lower than you will find in town. If we are unable to do a repair, we know reputable shops in town that you can also trust.

Our shop is also available to those who would rather work on their own vehicles as well. We carry most tools needed for the average job at no extra cost to you. We also make a parts run at least once a day during the week if your time or vehicle prohibits you from picking up your own parts. Please feel free to stop by to ask for a free estimate or let us answer any questions you may have!
